Our Values for this month are TOLERANCE & SENSITIVITY

Through our charity event for Children in Need, Poppy appeal and Anti-bullying week, the children have learnt about sensitivity and the role of tolerance. Exploring values through different events, assemblies and class discussion allows the children to develop their mindset, views and understanding of a value. The teachers are exploring ways to develop the children's 'Growth Mindsets'. When the children can develop a flexible mindset they become 'Resilient Gold Medal Learners'. The opposite is a fixed mindset that tends to keep the children stuck and in their comfort zone.

For more information on 'Mindsets' see: <http://mindsetonline.com>

Parents' Suggestions & Requests

Thank you to parents who have enquired after our approach to Black History Month or requested further workshops for times tables and reading; we hope you have noticed from our actions that we take your suggestions on board to improve our provision. Our Achievement and Subject Leaders welcome your comments; do approach us in the playground, make an appointment or leave a message with the school office.

Lateness is impacting on too many of our pupils' attainment and progress ... some miss over 2 hours of learning in one week ... lateness is not acceptable ... please plan your journey ... leave the car at home if parking is an issue ... don't let your own lateness affect your child ... lateness also impacts on children's emotional well-being ... many classes start with a guided reading session every day; an essential activity not to be missed ...

Reading Eggs and Reading Eggspress

The focus for Home Reading for the rest of the term is on Reading Eggs/press. Please ask your child for their password and encourage them to spend some time on this. It is a fun way to learn.

There will be a prize for a child in each class at the end of next week.

Y3 visit to the Dugdale Centre

On Thursday, Year 3 visited the Dugdale Centre in Enfield. We visited the Museum where we saw artefacts from the First World War. An actor, who pretended to be a reporter, told us about when an airship was shot down in Enfield. We had a chance to try on some outfits, including a tin hat and a khaki jacket. In a different part of the Museum, we were excited to see the tooth of a woolly mammoth and some flint tools from the Stone Age.

Year 4 Science Corner

This term Year 4 are learning about electricity. This week in pairs we made a circuit with wires, batteries and bulbs. It was exciting when our circuit worked and our bulb lit up! We then experimented with breaking the circuit and adding other bulbs and batteries to the circuit to see what would happen.

Ayse and I made a circuit with a lightbulb, a wire and a battery. It was very very good. Joel 4H

Today I made a circuit and it didn't work, so Mr Bless came and helped me. We took out the battery and the bulb and replaced them but nothing happened. We then took out the wire, fixed it and the bulb went on. Elijah 4H
