

Here is Monday's text correctly written. I hope that you managed to find all the mistakes. I have highlighted the corrections in purple.

Walter's very first match for Spurs was in 1909. It was Spurs' first game after they went into the top division. Walter ran onto that field and he played like a dream. He played in front of a crowd of 30 000 cheering fans.

He was brilliant. Everyone said so. He could pass the ball 35 yards right to the winger's feet. The newspapers all said he was the star of the team. His future was bright, very bright. But later that year something happened.

He was playing at an away match at Bristol when it started.

Every time the ball went near him, the Bristol crowd started to yell at him. They couldn't have a go at him for his playing- so they got at him because he was black.

It must have seemed like a nightmare. This had never happened before in football.

Just to say...
