

## Life Cycle of an

Read the text on the Amphibian Life Cycles again (*section on the Salamander*).

Answer the following questions:

A (*Only for the Salamander*)

1. Where does the female salamander lay her eggs?
2. How are the female eggs laid?
3. Explain the stages of development for the salamander?

Like this:

*i – the female lays her eggs*

*ii – the eggs hatch into larvae*

*iii - .....*

Please see separate sheet – to draw/fill in the Life Cycle in your books and cut out the pictures for your cycle.
