Curriculum Focus: Science

Golden retriever

Dalmatian

How are these animals similar and how are they different?

Why are they different?
because.....

There are lots of reasons why living things vary. This activity is about humans.

Human Variation

Environment or Inherited?

Draw a table like this in your book. Sort the statements (below). The first one has been done for you.

Inherited (Passed on by parents)	Environment (Not passed on by parents)	Not Sure	Both inherited and environment
hair colour			

Characteristics to sort:

hair colour ✓

weight

the language we speak

the way we behave

attitude to others

height

intelligence

the clothes we wear

the shape of your face

whether you are musical

whether you are sporty

whether you are artistic

eye colour

scars on your skin
