

Thursday 23rd April – Maths

Today we are going to work on angles (not angels!)

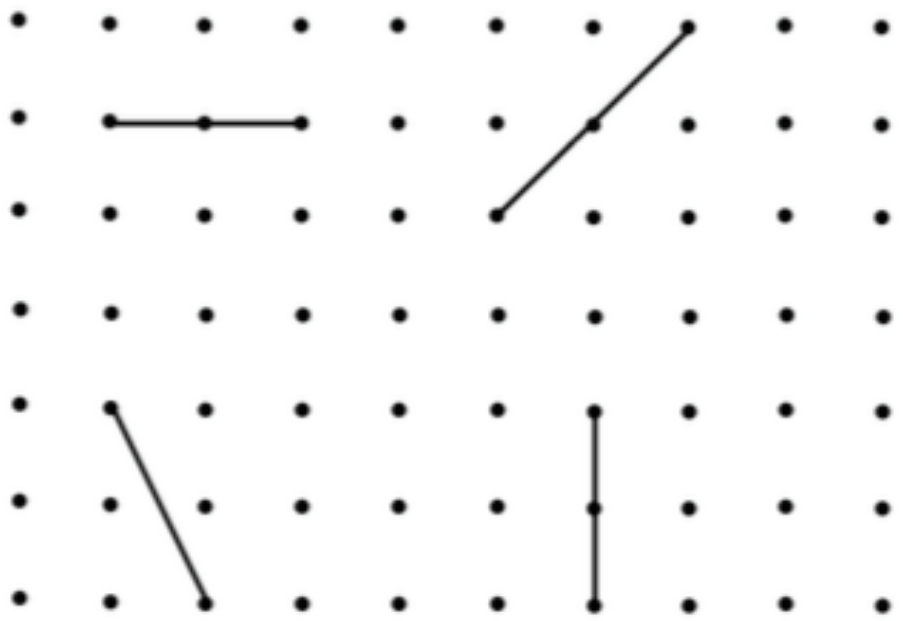

Remember you only need to write the answers.

An Angel

1.

Draw a line along the dots to make a right-angle with each of these lines:

If you have a printer, you can print the sheet out, but if not draw right angles in your book.

2. How many right angles can you see in this image?

Can you create your own image with the same number of right angles?

If you have a printer, you can print the sheet out, but if not its quite simple to draw the house in your book.

Answer

There are 34 right angles.

3.

The letter 'X' has four angles.

Write your name in capital letters.

How many angles can you see in each letter?

How many angles are there in your full name?
