

Enrichment Activities

We have collated a range of enrichment activities that our pupils might want to undertake when not Home Learning. There are also a wide range of opportunities and skills that children and adults can develop whilst self-isolating.

General resources

Childnet Film Competition

What are we looking for?

We are looking for films or storyboards that tell us why you want an internet that allows people to feel free and safe online and how we can make this happen. Once again we're on the look-out for films with a positive and clear message about the ways we can use of the internet.

<https://www.childnet.com/resources/film-competition/2020>

There are 3 different categories this year:

Solo category – Young people make their own film, with minimal support from an adult.

Group category – Work with friends or family to make a film.

Storyboard category – Create a short storyboard and script for a film.

Subject specific resources

Geography

<https://www.youtube.com/user/GeographyNow> - This YouTube site has a 7 minute explanation of every country in the world. Aimed at KS3 and above (but also for our interested upper KS2s) it is very informative and quite addictive a letter of the alphabet every day of the holiday?

The Royal Society's Young Geographer of the Year competition, run in partnership with Geographical Magazine, is for geography pupils aged nine to 18. It is awarded every year alongside the Rex Walford award which recognises the work of a trainee or new geography teacher. This year's awards ask entrants to write a submission answering the question 'How can geography help you?' With the awards now open for entries, we asked four geographers at in differing careers how geography has helped them to date.

<https://www.rgs.org/geography/news/young-geographer-of-the-year-awards-now-open/>

Languages

<https://www.bbc.co.uk/bitesize-> This site contains many activities for KS1, KS2 and beyond on many topics covering a variety of skills.

<https://www.languagesonline.org.uk/Hotpotatoes/index.html> - This site is particularly good for grammar as the exercises will be marked. (select the language and do the exercises – no need to sign up)

www.lyricstraining.com - Lyrics Training is a website which uses embedded YouTube music videos of popular songs to provide language learners with a fun way to practice language skills.

Creative Art ideas

Creative ideas for students and staff over the Easter holidays. Take photos of your work and we can organise a virtual Art Exhibition– Title your work and upload **to Art is where the home is**

Lots of information on drawing and creative projects!

<https://www.theguardian.com/artanddesign/series/guide-to-drawing>

<https://firstsite.uk/art-is-where-the-home-is/>

Fantastic activities to do at home <https://www.tate.org.uk/kids>

Community Art projects **Antony Gormley** who has come up with a “**people's paper chain**” idea. The piece of paper will have a drawing of a person on it which can be folded and cut into a paper chain. **Mark Wallinger** hopes people everywhere will **draw their own hand** and put it in their window as a kind of nationwide wave.

Technology education

The aim of the lessons plans is to teach children all about how technology is evolving and advancing in different areas of work. We want to broaden children's knowledge of technology careers and the types of people who work in them. This is important knowledge for your child as the world of work is changing rapidly due to technology advancements. We want children to be aware of the kind of roles and careers which will be available to them when they leave school. We want to show them how their current hobbies and passions could lead them into a career in technology.

Virtual Tours and Trip

Virtual tours and trips that can be undertaken to places, museums and sights around the world: <https://www.princeofwales.enfield.sch.uk/wp-content/uploads/2020/04/Virtual-Tours-and-Trips.pdf>

Department for Education - Online educational resources to support children to continue learning at home

The DfE has published a list of online [DfE website](#) resources that parents, and schools can consider to support children to continue learning at home. The list will be updated over time, and includes a wide range of resources for all ages that schools and families can consider using as part of their planned curriculum and learning. Schools have already been drawing on existing resources and tools they are familiar with to support children to continue learning at home and should continue to do so.

We have brought together an initial list of online educational resources to help children to learn at home. More information can be found here:

<https://www.princeofwales.enfield.sch.uk/wp-content/uploads/2020/04/DFE-Homelearning-Guide.pdf>

These websites have been identified by some of the country's leading educational experts and offer a wide range of support and resources for pupils of all ages.

The list includes subject-specific resources for:

- [English](#)
- [maths](#)
- [science](#)
- [PE](#)
- [wellbeing](#)
- [Special educational needs and disabilities \(SEND\)](#)

They are currently being offered for free.
