

Year 6 Maths

with Miss Maths

Daily maths with Miss Maths

- ▶ My group can join me at 11am or work through this power point at home.
- ▶ Tomorrow (Friday) you will have time to work through the Oak Academy Angles quiz and lesson. You can also have a look at any other angles work set for year 6.

<https://www.thenational.academy/year-6/maths/find-the-value-of-missing-angles-year-6-wk3-1#slide-1>

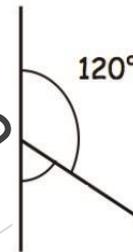

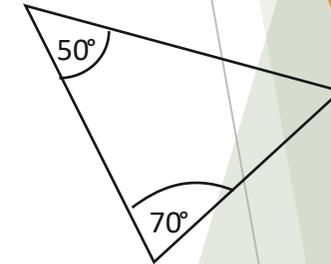

(This is from Monday's work)

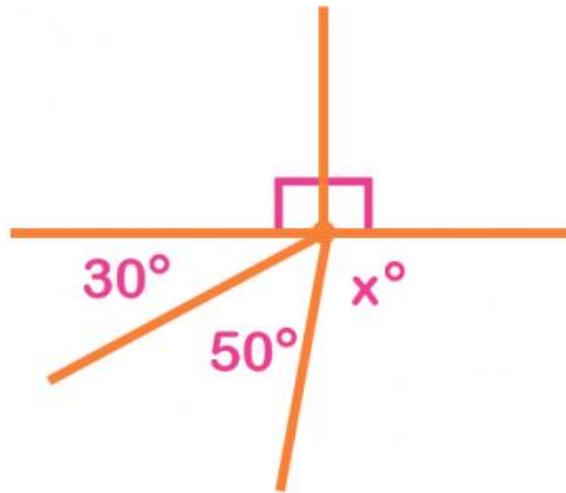

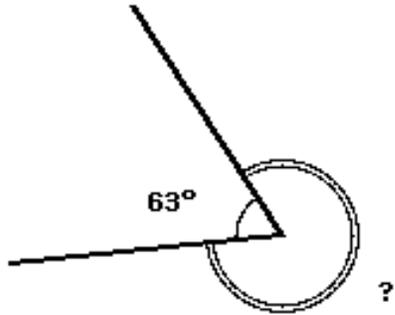

How much have you remembered from our learning this week?
Try to answer the following questions in full sentences.

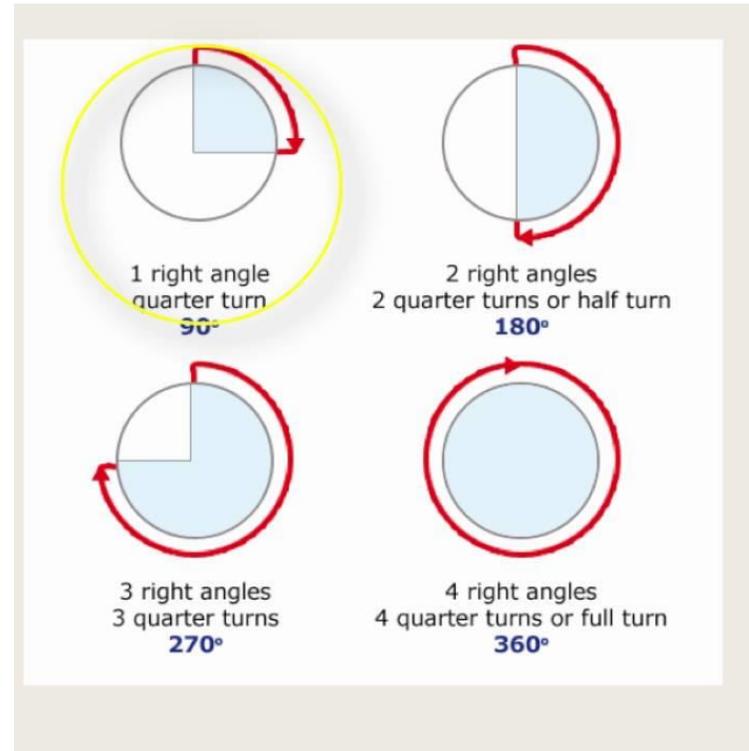

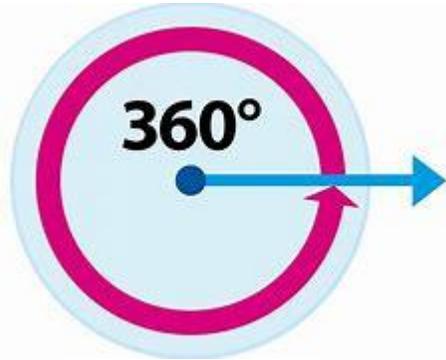

- ▶ What can you tell me about an angle?
- ▶ What are the different types of angles?
- ▶ How many degrees in a $\frac{1}{4}$ turn, $\frac{1}{2}$ turn, $\frac{3}{4}$ turn and a full turn?
- ▶ How do you find a missing angle in a triangle? (no angle measurer)
- ▶ Name the 4 types of triangles and describe how they are different.
- ▶ How do you find a missing angle within a straight line?

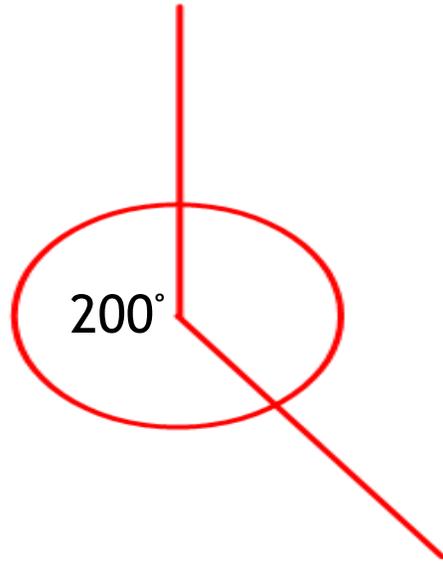

Today we will learn
about missing angles
within a full turn

A full turn

We know a full turn is 360° so to calculate the missing angle below we take away 200° from 360° to find the answer.

360° is the full turn	
200°	The missing angle

$$\begin{array}{r} 360 \\ -200 \\ \hline 160 \end{array}$$

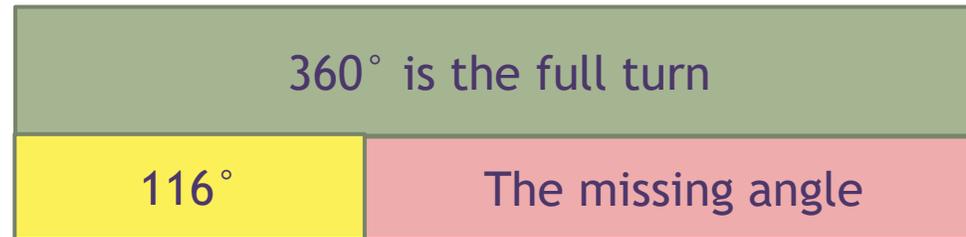

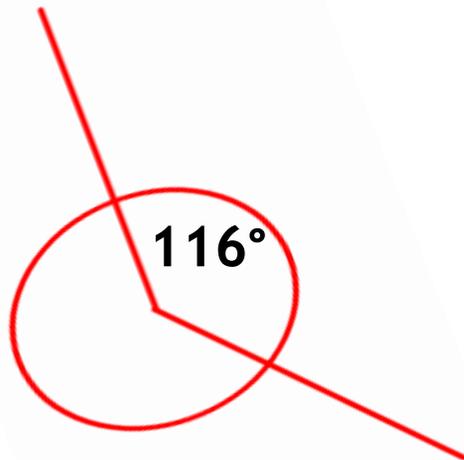

Remember to check your answer yourself. The mystery angle added to the angle given should equal 360° . Use your addition skills to check your own work.

Let's try another question.

We have a missing angle and an angle that measures 116°

We know a full turn is 360° This is an essential key fact that we need to know.

(Yesterday our essential key fact was that a straight line angle = 180°)

$$\begin{array}{r} 360 \\ - 116 \\ \hline \\ \hline \end{array}$$

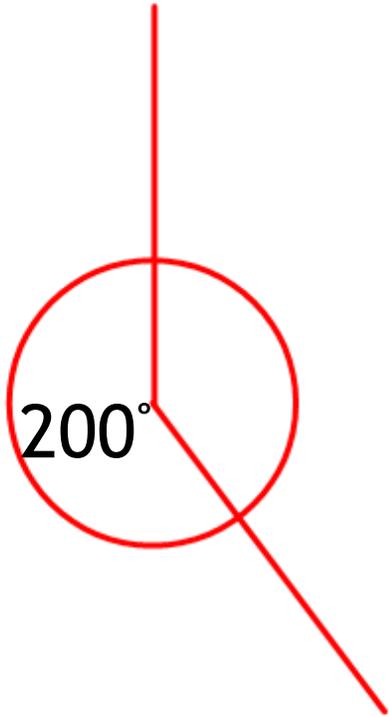

Remember to check your answer yourself. The mystery angle added to the angle given should equal 360°

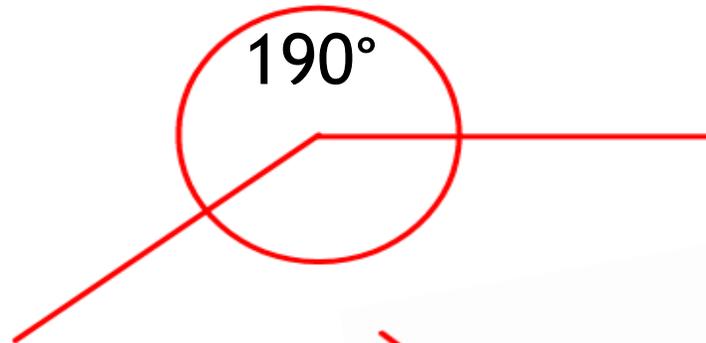

Use your addition skills to check your own work.

Calculate the missing angles:
Check your work by doing the inverse.

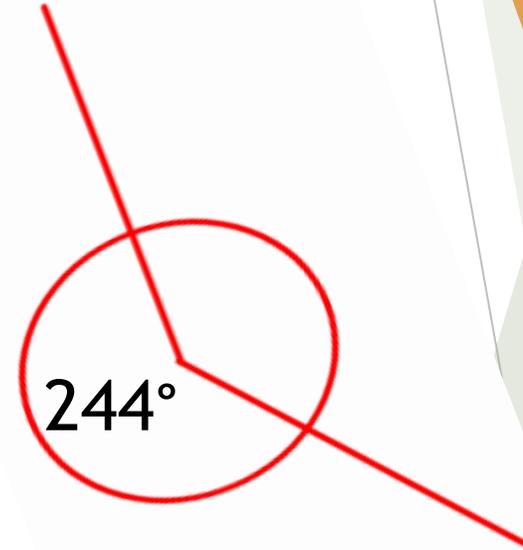

A

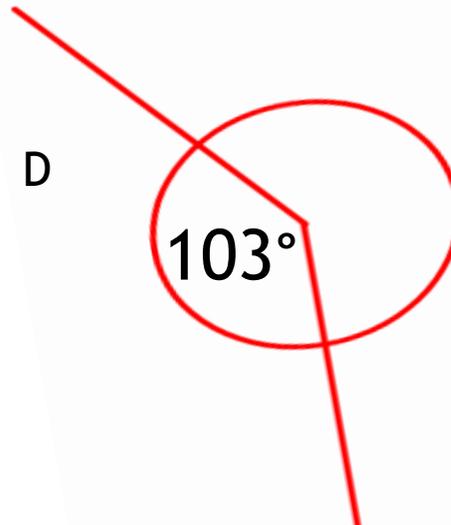

B

C

D

Remember there is no online lesson tomorrow. Please go through the Oak academy lesson from Monday or any other angles work.

Have a lovely half-term break. I'm really proud of you all. Your effort and attitude towards your learning has been amazing.

Have a great week,
from Miss Maths 😊
