

RIVER MUSIC-RIVER JOINING THE SEA

Use body percussion and voice sounds to try and compose something that represents a river when it joins the sea that is at the mouth of the river.

Slowing right down- A sound to represent a big wide river.

Where the river meets the sea- The sound of the waves, a seagull or a ship.

Challenge

Can you perform all of your music starting with the source, then the waterfall and finishing with the mouth of the river?

It would be lovely if you could send your music in to your teacher. Mrs Redmore would be so excited to see it !
