

## Subtraction ("take away") questions

Answer these questions as quickly as you can.

You could set a timer to see how long you take then try answering the same questions again later to see if you beat your time!

You could use objects to help you or a number line or number square.

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20
21	22	23	24	25	26	27	28	29	30
31	32	33	34	35	36	37	38	39	40
41	42	43	44	45	46	47	48	49	50
51	52	53	54	55	56	57	58	59	60
61	62	63	64	65	66	67	68	69	70
71	72	73	74	75	76	77	78	79	80
81	82	83	84	85	86	87	88	89	90
91	92	93	94	95	96	97	98	99	100

## My 0 to 20 number line

0 1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20

# Challenge 1!

$4 - 3 =$

$2 - 0 =$

$3 - 1 =$

$6 - 3 =$

$8 - 2 =$

$9 - 5 =$

$7 - 7 =$

$8 - 3 =$

*If you found this easy, try Challenge 2!*

## Challenge 2!

$19 - 6 =$

$20 - 9 =$

$26 - 2 =$

$35 - 4 =$

$58 - 5 =$

$80 - 2 =$

$84 - 8 =$

$75 - 7 =$

*If you found this easy, move on to Challenge 3!*

Challenge 3 is a bit harder. You will be taking 10 away from a 2-digit number.

Watch this video to give you some practise:

<https://www.bbc.co.uk/bitesize/clips/z7mhyrd>

What did you notice about the ones number?

## Challenge 3!

$24 - 10 =$

$46 - 10 =$

$55 - 20 =$

$86 - 50 =$

$62 - 20 =$

$99 - 40 =$

$52 - 50 =$

$36 - 20 =$
