Subject	Lesson focus/objective	Activity and/or instructions
Reading/ Phonics	I can retrieve information from a given text.	<ol style="list-style-type: none"><li>1. Read the text 'paramedics' on <a href="#">page 2</a>.</li><li>2. Answer the questions on <a href="#">page 3</a>.</li><li>3. Check your answers on <a href="#">page 10</a>.</li></ol>
Mathem atics	I can show that multiplication of any 2 numbers can be done in any order.	<ol style="list-style-type: none"><li>1. Log in on <a href="https://trockstars.com/">https://trockstars.com/</a> and practise your times tables.</li><li>2. See <a href="#">page 4 and 5</a> for today's activities.</li></ol>
Writing	I can write a book review for 'The Highway Rat'	Listen to the story again here: <a href="https://www.youtube.com/watch?v=bkVoYeCLIXU">https://www.youtube.com/watch?v=bkVoYeCLIXU</a> Write a book review for 'The Highway Rat' using the template on <a href="#">page 6</a> .
PSHE	I know what to do in unsafe situations	<ol style="list-style-type: none"><li>1. look at the 8 scenarios on <a href="#">page 7 and 8</a>. Order these scenarios from least risk (1) to most risk (8). Tell me what scenario is the most dangerous and why.</li><li>2. Answer the questions on <a href="#">page 9</a>.</li></ol>

Please read daily and complete your reading record. You can access Accelerated Reader clicking [here](#) and putting in your user name and password: <https://ukhosted2.renlearn.co.uk/1894742/> You may find that some of your books at home are also on Accelerated Reader, so re-read them and give the quiz a go.

## **Practising the skill- retrieval Paramedics**

A paramedic can be a man or a woman. Their job is to help sick or injured people. When someone is sick or injured, a paramedic may be called to take them to the hospital. A paramedic may also be called if someone has broken their leg, been in a car accident, had an allergic reaction or had an asthma attack. It does not matter what time of day or night when an emergency happens, you can dial '999' at any time. Paramedics are important in our community. They are so important that they need to work every day of the year, just in case of emergencies.

Calling '999' should only be done if there is an emergency. If you call this number as a joke, you can get into trouble. We need to keep the telephone line clear for actual emergencies as the paramedics are there to save lives. When a paramedic needs to get to a certain place, they turn on their lights and sirens. This is so people on the road around them know that they are in a hurry to get to someone who is sick or injured. When you see the lights flashing and you hear the sirens, this means you need to leave enough space for the ambulance to pass by.

Paramedics carry lots of special equipment. This equipment helps them to save lives. Some of the important equipment that they carry are special drugs and medicines, bandages, oxygen bottles and heart monitors. They also carry radios and walkie-talkies. These help them stay in touch with other paramedics. Paramedics have a vital job in our community.

## Retrieval questions- Paramedics

1. True or false- Only women can be paramedics.
2. What is a paramedic's job?
3. Give 2 reasons from the text why a paramedic might be called.
4. Why do paramedics have to work every day of the year?
5. When can you dial '999'?
6. What is the problem with calling '999' as a joke?
7. What do an ambulance's lights and sirens tell people around them?
8. If you are in a car and you see the blue lights of an ambulance behind you, what should the driver do?
9. Name 3 pieces of special equipment that can be found in an ambulance.
10. Why do paramedics carry walkie-talkies?

The commutative property of multiplication means that when two numbers are multiplied together it doesn't matter which one comes first because the product will be the same. Division does not have commutativity.

$$4 \times 2 = 2 \times \underline{\hspace{2cm}}$$

$$1 \times 3 = 3 \times \underline{\hspace{2cm}}$$

$$3 \times 5 = 5 \times \underline{\hspace{2cm}}$$

$$3 \times 10 = 10 \times \underline{\hspace{2cm}}$$

$$7 \times 10 = 10 \times \underline{\hspace{2cm}}$$

$$11 \times 3 = 3 \times \underline{\hspace{2cm}}$$

**Fill in the missing numbers:**

$$\underline{\hspace{2cm}} \times 2 = 2 \times 5$$

$$5 \times 2 = \underline{\hspace{2cm}}$$

$$2 \times \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

$$\underline{\hspace{2cm}} \times 3 = 3 \times 8$$

$$3 \times 8 = \underline{\hspace{2cm}}$$

$$8 \times \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

## Risks.

Below are 3 questions about risk. The word 'risk' means doing something without being sure what will happen. We take lots of risks, every day. Sometimes without knowing! Some risks can be dangerous, others can make us a little nervous.

1. How do we know if something is risky?

2. What can we do if we are not sure if something is risky?

3. Are all risks bad?
