

Choose Kindness

Our lives have changed since the coronavirus pandemic. We now show kindness in new ways. We make posters to encourage others.

We are extra special kind to our families.

We show kindness by waving to our loved ones through the window.

Being kind means if you can then keep in contact by face timing friends and family.

We do home learning without a fuss
and so we show kindness.

If we can then we let our teachers know we are ok through emailing.

Once back at school we will show kindness by sitting apart from our friends.

When back at school we will show kindness by washing our hands often to keep ourselves and others safe.

At school will stay apart in the corridors.

We will play together at a distance
in the playground.

And when the coronavirus pandemic is over we will be able to be closer to our friends again.

The End
