

I can discuss what is happening at each stage of the journey .

Let's read some more of the book and look at the illustrations of the 4 stages of the journey.

Think about what is happening and then answers the questions.

We leave at night to avoid being seen...

and keep moving for many days.

The further we go...

the more we leave behind.

Think carefully about the following questions and then write your answers in full sentences , if you can link them up into one paragraph.

- What is the same and different in the pages?
- What do the pictures tell you about the nature of the journey?
- What would be the thoughts and feelings of the mother at the varying stages of the journey?
- Does the different colour have any impact?
- Look again at the pictures paying attention to the luggage, what do you think happened to it ?

Is there anything you would like to say about the text ?
