

Lesson 3 & 4 & 5

People Who Changed The World

So for the next few days the Year 6 teachers are asking you to choose someone who you think changed the world and write their biography (story of their life). There were some suggestions in Monday's lesson, but there are many more famous people to choose from.

Step 1 Choose someone who changed the world

Step 2 Research the person's life

Who are they? How did they change the world? Where is your person from? What important events happened in the person's life?

Either copy and paste a picture or draw a portrait of your person.

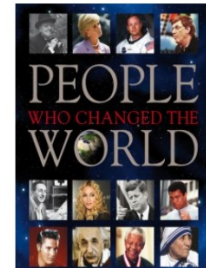

Step 3 Present your information

Option 1 - Prepare a powerpoint presentation

Option 2 - Create a poster about your person

Option 3 - Write out your research and draw a picture

Option 4 - Read out your research, like a speech

As you have three days for this project, your work should be detailed and must include at least one picture.
