

Tuesday 9th June

I can count in 50s using my 5 times tables to help me.

Chant your 5 times tables using this video.

Jan says that if you know your tables of 5 help you to count in 5s. Is she correct?

Discuss this with your adult.

5	10	15	20	25	30
50	100	150	200	250	300

What was added to each number to count in 50s?

Can you continue to count in 5s to 60 and in 50s to 600?

Now count in 50's on using these work sheets.
Remember to use your 5 times tables to help
you.

First worksheet- counting in 5s and then 50s

Second worksheet-counting in 50s and then
solving a word problem on counting in 50s.
