

Tuesday 23rd June

I can add multiples of 10 to 3 digit numbers.

Evergreen Primary School has 213 pupils.
There are 400 more pupils in Lakeside Primary School than
in Evergreen Primary School.

How many pupils are there in Lakeside Primary School?

How can you solve this? Discuss with an adult.

Can you use the method you used yesterday?

Which digit in each number changed as Tom counted on?

Now practise these.

$$125 + 600 =$$

$$279 + 200 =$$

What are the top tips you would give if your friends are trying to solve this?

Have a go at the worksheet.

Have a go at the challenge.
