

Subtract by counting back in tens.

(a) $56 - 40 = \boxed{16}$

(b) $43 - 10 = \boxed{33}$

(c) $68 - 20 = \boxed{48}$

(d) $99 - 80 = \boxed{19}$

(e) $72 - 50 = \boxed{22}$

(f) $83 - 60 = \boxed{23}$

Challenge 1

54 is the largest number.

14 is the smallest number.

The difference is $54 - 14 = 40$

Challenge 2

28

Challenge 3

I know this challenge was very tricky but I worked it by trying different numbers to get 40, ensuring the numbers were 7 more than the second and 3 less than the third.
