

Eco House Lesson 3 Build your eco - house

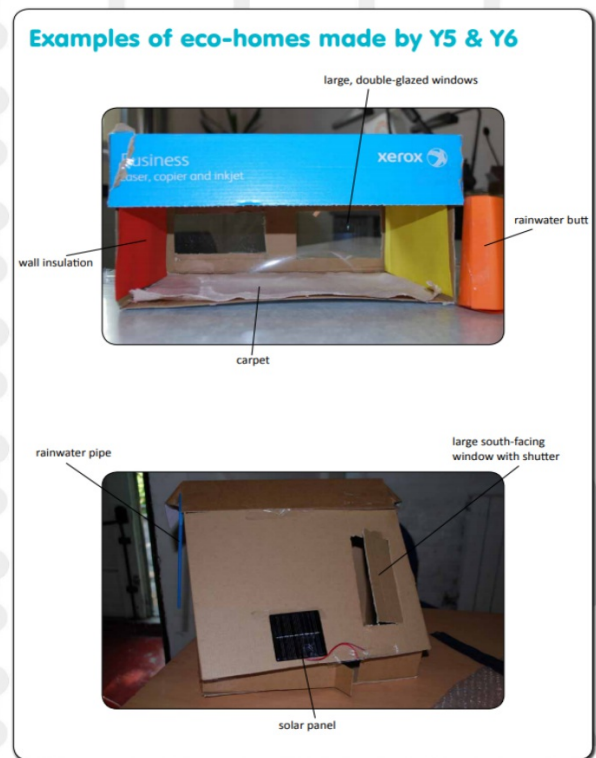

Remember, the focus is not to make the house look pretty but to have as many eco-friendly elements as possible.

Useful Materials

Craft knife/ scissors	Cardboard box
Glue Stick tape	Bubble wrap
Stapler	Scraps of fabric
Scraps of card	Straws
Transparent food bags	

Tips

- Cut out windows
- Use old fabric or bubble wrap for insulation
- Use carrier bags for glass, two layers for double glazing
- Use straws for drain pipes
- Use cardboard tubes for recycling bins and water collectors.

You will get green points for each eco-friendly element.
