

## Solve these problems

This picture shows the masses of eight kittens.

What is the **difference** in mass between the heaviest kitten and the lightest kitten?

At the archery competition, our team was Seema and Yusef. Seema scored 152, and Yusef scored 236.

The winning team's score was 599.

How many less than the winning team did our team of Seema and Yusef score?

The teachers bought a new box of tea bags for the staff room. The box contained 496 tea bags.

Last week, they used 51 bags.

This week they used 143 tea bags. How many tea bags are left?

Now try these missing number problems

Write the two missing digits.

$$\boxed{\phantom{0}}\boxed{1} - \boxed{2}\boxed{\phantom{0}} = 34$$

Write in the missing number.

$$1 + 10 + \boxed{\phantom{000}} = 100$$

Write in the **missing** digits.

$$593 - 20\boxed{\phantom{0}} = 3\boxed{\phantom{0}}1$$
