Writing...

Our English work has been linked to our topic on Ancient Egypt. We have created fact files about Howard Carter, completed instructions on Mummification and written in role as Howard Carter about the discovery of Tutankhamun's tomb in 1922.

Zaynab's fact file.

Ozgur's Mummification instructions.

1. First, embalm the body in a tent.
2. Next, remove the liver, lungs, stomach and intestines.
3. Then, put these in Canopic jars.
4. After that, pull the brain out with a hook.
5. Place in the river.
6. Add salt to stop it from rotting.

Here are examples of our diary entries.

November 22nd 1922

Dear Diary,

You will never believe what happened today! I found the tomb of King Tut and I was astonished by all the things I could see, from animal statues to gold! It was like a dream. So, when I told Lord Carnarvon he didn't believe me and was amazed when he saw it for himself! When we were taking them back, which is a lot of work you know. When my team and I came back from Egypt Lord Carnarvon and his pet had died and my pet also died.

November 22nd 1922

Dear Diary,

You will never believe what happened today! I have found a pharaoh's tomb and surrounding it was so much gold and valuable things like jewellery, boats, a house and some statues of cats. I was very astonished to see a Pharaoh had died so early. There was lots of hot air as I walked through. The body was also mummified.
